VOLUME 8. MARYVILLE, MISSOURI, FRIDAY, JUNE 15, 1917. NO. 10.

SALE AVERAGE $1,134

51 HEAD OF SHORTHORNS BRING BELLOWS BROTHERS $57,850.

BUYERS GO TO SKIDMORE

Attend Cattle Sale of F. C. Barber and Sons, Which Was Held This Afternoon.

A sale lasting a little more than two hours brought Bellows Brothers $57,850, the proceeds from fifty-one head of fine Shorthorn cattle. The average for the sale was $1,134.31.

Rosewood Reserve, a 2-year-old bull, was bought by Mrs. J. B. McCauley of Lewiston, Montana, for $8,100. The next highest price was paid for Maxwalton Clipper 8th, a 4-year-old cow, which was purchased by Jackson and White, Hurley, S. D.

About 1,000 buyers and spectators attended the sale which was exceptional on account of the high prices paid for the cattle and for the spirited bidding.

FORMER POLICEMAN KILLED

Joseph Killion, Officer Under U. S. Wright, Crushed by Burlington Switch Engine at St. Joseph.

Joseph H. Killion, 39 years old, at one time night policeman at Maryville, was crushed to death, presumably by a switch engine at a Burlington crossing in St. Joseph yesterday morning. His body was found shortly afterward by a switchman.

Mr. Killion was a police patrolman in St. Joseph, having been appointed to the force, April 13, last for a probationary period of one year. He went to St. Joseph from Maryville three years ago, having served here for one year as a night policeman when U. S. Wright was mayor and E. C. Moberly was marshal. His home before coming to Maryville was in Caroline, Tex.

Mr. Killion is survived by six children, all of whom live at the family home in St. Joseph. They are: Wade, 18 years old; Florence, 17 years old; Lucy, 14 years old; Thelma, 11 years old; Woodrow, 5 years old, and Mary Jane, 7 months old.

The funeral will be held at Mound City tomorrow or next day, with burial in Mound City cemetery. U. S. Wright and E. C. Moberly will drive to Mound City to attend the last rites.

The St. Joseph Chief of Police said that considering the time Mr. Killion has been on the police force he was as good a patrolman as he had ever known. He was sober, industrious and always attended to his duties, the chief said.

A Chicken Yard That Pays.

Speaking of chicken yards that pay, we wish to give a few facts about the Vanfossan chickens. Clell asserts that by July 1, his poultry sales will have reached $1,000 since January 1. He says that it cost him a little less than $2.00 a day to feed his chickens, which leaves him a nice profit of about $750 for six months. Besides this he has his regular farm work, the care of the poultry interfering in no way with it. He says that he feeds his chickens corn twice a day, bran, meat scraps once a day and every day gives them a little salt. He has the laying strain of the White Leghorns and every day his hens bring him in nearly $6.—Barnard Bulletin.

Charles E. Kane went to St. Joseph today on a business trip.

FOUR MARYVILLE BANKERS REPORT LIGHT SALES FOR LOAN.

$600 GIVEN BY NORMAL

Students and Faculty Will Devote the Proceeds to Some Worthy Cause —Morning Sales Speed Up.

Special to The Democrat-Forum.

Washington, June 15.—A half billion dollars more than asked for is America's answer to Germany and German military aggression. The treasury department officials said this afternoon that to date subscriptions to the Liberty Loan would be $2,500,000,000. The exact total will not be available until very late tonight.

The sale of Liberty bonds for the $2,000,000,000 Liberty Loan, which closed at noon today, amounted to $46,000 in Maryville, according to reports from the four banks handling them. The Farmers Trust company disposed of $20,000 worth of the bonds.

The sale speeded up a little this morning, nearly all of the banks reporting sales. One bank sold $6,000 worth of the bonds before the noon hour. About $7,060 worth were sold by the four banks this morning.

The campaign to sell the bonds was not very lively in Maryville and the amount sold is a little less than half of what was expected of a city of this size. The spirit shown within the last few days was better than at any time during the period and the ringing of the bells on the three nights helped to remind holders of money of their duty to the country.

The faculty and students of the State Normal school this morning subscribed $600 for Liberty bonds in order to aid in making up the deficit in the $2,000,000,000 Liberty Loan of 1917.

The proceeds from the bonds will be devoted to some worthy cause such as the student fund.

The Boy Scouts of Ravenwood have sold twenty-two subscriptions for the Liberty Bond issue, ranging from $50 to $500, in that town.

Kansas Does Her Part.

Topeka, Kan., June 15.—Indications are that the Kansas Liberty Loan has passed the $20,000,000 mark. At Topeka it was three times oversubscribed.

MAKE WAR ON THE BUGS

Gardener and Farmer Will Lose From 10 to 50 Per Cent of Product If Precautions Are Not Taken.

"The gardener and farmer who wants to make his crops count for the most needs to keep up a constant warfare on the bugs," said Prof. C. C. Leeson of the Department of Entomology at the State Normal school.

"It costs the United States yearly one billion dollars to feed its insect host," continued Professor Leeson. "This is one-seventh of the present special war tax. It is also five times as much as the combined appropriations for the United States army and navy in times of peace. The ordinary gardener will probably lose from 10 to 50 per cent of his product in this way unless some precautions are taken.

"Here are a few formulas that may be efficient in controlling insects. For those insects which eat the leaves use one teaspoon of paris green to three gallons of water, or one tablespoon of arsenate of lead to one gallon of water. The arsenate of lead will cost more, but there is no danger of injuring the plant.

"For sucking insects, such as plant lice, make a soap suds of one-half a cake of ivory soap and one gallon of water. A tobacco spray is also good. For this use one pound of tobacco leaves boiled for one hour in two or three gallons of water, and use as a spray.

"These sprays may be applied with a whisk broom, a sprinkler or a hand spray pump that may be purchased for 75 cents.

"These sprays are of the simplest and safest type and will interest only the amateur. The Department of Entomology of the State Normal school is ready to offer any information and advice to any person having special problems of this type. A return stamped envelope addressed to that department or phone to Hanamo 5669 will receive a willing response."

FAVOR BOND ISSUE

SKIDMORE CITIZENS STATE VIEWS TO THE NEWS EDITOR.

FOR ROADS AND BRIDGES

"The Condition Is Getting So Serious That Bridges Must Be Fixed," Said One Man.

Skidmore residents favor the bond issue for the building of bridges, according to this week's Skidmore News. W. J. Skidmore, the editor, asked a number of the prominent citizens of the vicinity to state their views and nearly all were in favor of repairing roads and bridges with money furnished in this way.

Here is what the men interviewed had to say:

F. C. Barber says: "I have always been in favor of anything that will help better our roads so I favor a bond issue."

G. F. Kellogg: "The road conditions in our county are not as good as our neighboring county, and I certainly favor a bond issue."

Eph Medsker: "Yes, sir! I favor a bond issue."

Dr. J. E. Pierpoint: "Am heartily in favor of a bond issue."

Judge William Wood of Burlington Junction who was in town Tuesday, in speaking of the conditions of the bridges said: "The condition is getting so serious that the bridges will have to be fixed."

J. M. Lee, township trustee: "I think I would be in favor of a bond issue for county bridges."

Jas. R. Gibbs: "Yes, I favor a bond issue."

Reubin Barrett: "No sir! I am opposed to a bond issue of any kind except a government bond."

F. I. Goslee, member of township board: "I certainly favor a bond issue, and think $200,000 would not be enough."

Dr. Roy Morgan: "I am in favor of better bridges and better roads."

G. L. Owen: "I certainly favor better roads and bridges and think we ought to issue bonds."

Frank Albright: Good roads are essential to a county and we cannot have good roads without good bridges so I am in favor of the bond issue."

Floyd R. Barrett: "I am in favor of better bridges."

Mark Loucks: "Our county certainly needs better bridges and I favor a bond issue."

M. A. Sewell: "I am heartily in favor of a bond issue for bridge purposes, as this seems the only way whereby we can maintain our roadways."

C. A. Sewell: I am in favor for a bond issue to cover necessary expenses to repair bridges in the county."

LYLE RITES THIS AFTERNOON

Funeral Services Held at First Methodist Church—Pallbearers Are Relatives of Dead Man.

A large crowd of the friends and relatives attended the funeral services for Lonnie Vern Lyle, which were held at the First Methodist church at 2:30 o'clock this afternoon. Several selections were sung by a quartet, consisting of Misses Mae Corwin and Dale Hulet, E. M. Claypool and the Rev. Gilbert S. Cox.

The pallbearers who were chosen from relatives of the dead man, were Merril Alderman, Joe Robertson, Harry Lyle, Will Thornhill, Clarence Lyle and Frank Lyle.

The body lay in state at the home of Mr. Lyle's parents, Mr. and Mrs. Humphrey Lyle from 10 o'clock this morning until 2 o'clock this afternoon.

TO RAISE MILLIONS

DETAILS OF TREMENDOUS RED CROSS "DRIVE" BEING WORKED

WILL LAST ONE WEEK

This Side of the Mississippi Has Responsibility of Collecting Fifteen Millions for the Fund.

The initial steps in preparing for the tremendous "drive" of Red Cross Week (June 18 to 25), when one hundred million dollars will be raised for military and civil relief at home and abroad, are being worked out on flying express trains.

Lyman C. Pierce, executive secretary of the Western Red Cross committee, having the responsibility of raising fifteen millions this side of the Mississippi, is directing the great campaign from the railroad cars which are carrying him from one city to another for conferences with the foremost men in those communities. From the cars he is wiring instructions and receiving reports from all the states in his district. And he has reported to the San Francisco headquarters that, in the remarkably short period of ten days, he has built up a fighting organization covering twenty states.

Pierce reports that the conferences in the five cities he has visited have been attended by governors, mayors, presidents of the great commercial clubs and labor leaders, the support for the campaign coming from all interests in the community.

At the Portland conference, which has just been concluded, Chairman John B. Miller clearly and decisively met the one serious objection that had been raised against the Red Cross purpose to take over the relief of soldiers' families. He explained, first, that there was the argument of urgency, the need of some effective action immediately and he pointed out that the Red Cross could act quickly without the delays which would necessarily attend any governmental action. He also made the point that the Red Cross, being the great neutral international agency, was immune from the restraints governing combatants. And, as a third reason why the Hundred Million Fund should be raised by the Red Cross, he declared that the people of the nation needed the call to support it in order to counteract any tendencies toward selfishness.

Besides Miller, the committee is represented in this flying tour by Lawrence C. Phipps, Sr., Charles E. Peabody, Henry L. Corbett and William H. Crocker and Ford Harvey joining the party for the Denver and Wichita conferences. In organizing this territory the committee have met all expenses, all the work being done without cost to the Red Cross as a public service.

$166.50 FOR WAR ORPHANS

Nearly A Thousand Tags Disposed of at Yesterday's Sale — Mrs. C. T. Bell in Charge.

Tag day held yesterday by the members of the D. A. R. for the benefit of the French war orphans was a great success, $166.50 being realized from the sale of the tags. Nearly a thousand tags were disposed of by the "taggers."

At the State Normal school the work was in charge of Miss Katherine Helwig and Miss Beulah Brubner, who were assisted by the Y. W. C. A. girls. About $40 was collected from the students. The work in town was in charge of Mrs. C. T. Bell, who with an able corps of assistants succeeded in covering the business district pretty thoroughly.

The money will be forwarded immediately to the American society for the Relief of French War Orphans, with headquarters at New York.

General Who Will Lead Our Soldiers In France

Major General John J. Pershing, who has been selected to lead the first division of American soldiers in France, is known in the army as "Black Jack." He is a native of Missouri, fifty-seven years of age and was graduated from West Point in 1886. After leaving the Military academy he saw much service in the various campaigns against the Indians. He won a captain's commission for gallantry at El Caney, Cuba, and shortly after was sent to the Philippines.

For his services in quelling the Moros of Mindanao President Roosevelt promoted him to the rank of brigadier general. At the time of his nomination for that rank in 1906 he was the youngest West Pointer ever named as a general of the regular army in a time of peace. In order to reward Pershing President Roosevelt jumped him over 862 officers who were his seniors in rank.

MAJOR GENERAL JOHN J. PERSHING.

General Pershing is a son-in-law of United States Senator Warren of Wyoming. Two years ago he suffered a great bereavement when his wife and two little daughters were burned to death at the Presidio of San Francisco. His little son alone was saved.

He received his major general's stars for his services in command of the United States punitive expedition into Mexico in the attempt to capture Pancho Villa.

Bobby Veach of Detroit.

Manager Hughey Jennings of the Detroit Tigers attributes the poor showing of the team largely to the fact that one of his best batters has been off in his work with the club. Left Fielder Veach has been away behind what he is capable of doing, but of late has begun to pick up. The Detroit outfield trio—Cobb, Veach and Heilman—is considered about as good as any in either league, and when Veach gets going the Tigers are pretty sure to begin a climb.

Calls Off Title Tennis.

No championship tennis matches will be held in California this year, it was decided at a recent meeting of the California Lawn Tennis association. Instead tournaments will be played for the benefit of the American Red Cross.

Rowland Is to Remain.

President Comiskey of the Chicago Americans has denied reports that he was negotiating with William Carrigan, former manager of the Boston Americans, to supplant Manager Rowland.

Insect Pests Reduce Production of Eggs

Lice and mites by feeding upon laying hens cause a reduction in egg production, says Professor F. E. Fox of the Kansas Agricultural college. The lice live continuously upon the fowl, eating the tissues and causing much annoyance by scratching and irritating the bird. Mites suck the blood of the victim and thus, in addition to annoyance and pain, rob the fowl of needed nourishment.

Lice have biting mouth parts and are therefore easily poisoned. For this purpose blue ointment is the most effective and easiest to apply. A piece about the size of a pea should be well rubbed into the fluff well up into the skin just below the vent. As the lice necessarily must go there for moisture they are readily poisoned. The treatment should be repeated in a week or ten days to assure killing those that hatch later.

Mites are combated in a different manner because of a vital difference in their life habits. They live upon the fowl only at night, sucking the blood. They then leave the bird and hide in cracks, crevices and filth during the day.

Effective control is mostly through sanitation. Give the house a thorough cleaning. Throw out all litter and straw, clean out all filth, brush down the sides, sweep the ceiling and scrub out the house with warm water. Spray thoroughly with coal tar dip, carbolic acid mixed with water or pure kerosene. In applying these solutions a brush may be used, but a spray pump is the most desirable.

THE RAINBOW.

My heart leaps up when I behold
A rainbow in the sky.
So was it when my life began;
So is it now I am a man;
So be it when I shall grow old,
Or let me die.
The child is father of the man,
And I could wish my days to be
Bound each to each by natural piety.

—Wordsworth.

Here is Some Inside Information and a Reason to Buy Your Clothing Now

Good Clothing is, of course, made of wool.
Wool is at the highest price ever known.
Consequently clothing is going to be higher in prices.

That which we have on hand now was bought at a lower market price than will be reached for a long time to come.

Consequently our clothing today is being sold at the same old prices and is the same good quality as always.

We can sell you a suit now at **$15.00, $18.00, $20.00, $22.50 and $25.00,** which will cost you $5.00 or $8.00 more next year.

In the face of these conditions we feel free to tell you plainly and honestly that we will not have our usual "One-Fourth Off Sale" and later, the "One-Half Price Sale."

Regular prices will be maintained absolutely throughout the season: the only reduction at all may be to the extent of a few dollars on a few odds and ends at the very end of the season.

We feel that it is not amiss to tell you that this condition prevails everywhere and you will not find Legitimate Values reduced in price by merchants who follow the usual reputable methods.

We believe you will appreciate this honest heart-to-heart talk about conditions, which is being thought, so that thoseiven so much who might possibly wait for the usual great price reductions given here and elsewhere will not be disappointed.

We advise that you buy now, so that you can get full benefit of service every day the balance of the spring and summer.

Kansas City Stock Letter.

Kansas City Stock Yards, June 11, —A good Monday run of cattle arrived, 16,000 head, market steady to 10c lower; top, $13.35; steers and heifers mixed $12.50, a record price for that class. Hogs received today 8,000; market 10c to 20c lower; top, $15.65. Sheep and lambs today 66,000; market 25c higher; native spring lambs -16.25.

Beef Cattle.

Oklahoma is sending grass cattle early this year, and steers from that state ranged from $8.25 to $11.50, from both above and below the quarantine line. Texas sent some good quarantine cake fed steers, prime steers in this class quoted up to $13. Arizona sent two trains of steers and mixed stock, best selling at $11.90. California sent three trains of steers and a train of mixed cattle, almost 50 cars in all, best of the steers selling around $11.75, heifers $9.00, cows $8.35, canners $7.10. Oregon sent 10 cars of good steers, 1,091 lbs. average, at $11.85, a record price for Pacific Coast steers. Pulp steers from Western Nebraska sold at the top, $13.35, 1,475 lbs. average, and Colorado pulpers brought $13.25, 1,353 lbs. average. Yearlings sold ahead of everything else today. Butcher cattle sold strong, including bulls, most cows up to $11, bulls $10, veals $12.50.

Stockers and Feeders.

Best stock steers in the last week brought $10.05, feeders $10.75, tops a year ago $8.35 and $8.65 respectively. Bulk of the stock steers sold at $8 to 89.40 and very few feeders are moving. Stock cows and heifers bring $7 to $9.50, some fancy heifer calves for breeding at $12, very few cows with calves by their side offered.

Hogs.

The hog market is going down regularly, under pressure of fairly liberal receipts at Chicago, where there were 45,000 hogs today, and some other Northern markets. Top price here at $15.65 was same as top in Chicago today, medium weights up to $15.55, light hogs $15.30, bulk of sales $14.90 to $15.55. However, receipts of hogs at the markets do not begin to be burdensome, and any decline in the price is due to its top-heavy position. Pig prices are staying within closer proximity to fat hog prices than ever before, because of the growing trade in immune stock hogs. The pigs sell at the stock yards at $13.50 to $14.50, and after they have been immunized may be bought at $15 to $15.50.

Sheep and Lambs.

Native spring lambs sold at $16 and $16.25 today, Arizona springs $15.75, California springs, barely better than feeders, sold to killers at $15.50. Clipped ewes are selling at $8.75 to $10, and some clipped Mexican wethers brought $10.25 today. Angora goats sold around $8 today to both killers and country buyers, slick haired white goats worth around $6.75.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine — double strength — and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

MAKE FARM LABOR SURVEY

College of Agriculture Plans to Supply Local Demands for Labor by This Means.

A farm labor survey will be made in each county with a view of supplying local demands for labor. D. C. Wood of the University of Missouri College of Agriculture, who is chairman of the sub-committee on farm labor of the Missouri Council of Defense and H. H. Clark of the United States Department of Agriculture are working on plans for the survey. A man will be appointed in each county to look after labor problems. Demands for laborers will be supplied as far as possible by men in the locality who are seeking labor. In case any county has a surplus of labor the demands of adjoining counties may be filled from that source. This will eliminate unnecessary transportation.

Mr. Wood and Mr. Clark have already received a number of applications for work. A preliminary survey indicates that there is enough labor to supply the demand for the present season in Missouri without going outside the state. If the war continues, however, and the labor resources of the state are depleted by the demands of the army and factories, a serious shortage of farm help will occur. It is hoped that the labor survey will enable a distribution of available labor in case these conditions obtain.

The applications of men for work have come principally from laborers in the cities. Some of them have had farm experience. A number of high school boys have applied for work on farms. The demand for labor thus far has been for experienced men.

FORMER POLICEMAN KILLED

Joseph Killion, Officer Under U. S. Wright, Crushed by Burlington Switch Engine at St. Joseph.

Joseph H. Killion, 39 years old, at one time night policeman at Maryville, was crushed to death, presumably by a switch engine at a Burlington crossing in St. Joseph yesterday morning. His body was found shortly afterward by a switchman.

Mr. Killion was a police patrolman in St. Joseph, having been appointed to the force, April 13, last for a probationary period of one year. He went to St. Joseph from Maryville three years ago, having served here for one year as a night policeman when U. S. Wright was mayor and E. C. Moberly was marshal. His home before coming to Maryville was in Caroline, Tex.

Mr. Killion is survived by six children, all of whom live at the family home in St. Joseph. They are: Wade, 18 years old; Florence, 17 years old; Lucy, 14 years old; Thelma, 11 years old; Woodrow, 5 years old, and Mary Jane, 7 months old.

The funeral will be held at Mound City tomorrow or next day, with burial in Mound City cemetery. U. S. Wright and E. C. Moberly will drive to Mound City to attend the last rites.

The St. Joseph Chief of Police said that considering the time Mr. Killion has been on the police force he was as good a patrolman as he had ever known. He was sober, industrious and always attended to his duties, the chief said.

A Chicken Yard That Pays.

Speaking of chicken yards that pay, we wish to give a few facts about the Vanfossan chickens. Clell asserts that by July 1, his poultry sales will have reached $1,000 since January 1. He says that it cost him a little less than $2.00 a day to feed his chickens, which leaves him a nice profit of about $750 for six months. Besides this he has his regular farm work, the care of the poultry interfering in no way with it. He says that he feeds his chickens corn twice a day, bran, meat scraps once a day and every day gives them a little salt. He has the laying strain of the White Leghorns and every day his hens bring him in nearly $6.—Barnard Bulletin.

FOUR MARYVILLE BANKERS REPORT LIGHT SALES FOR LOAN.

$500 GIVEN BY NORMAL

Students and Faculty Will Devote the Proceeds to Some Worthy Cause —Morning Sales Speed Up.

Special to The Democrat-Forum.

Washington, June 15.—A half billion dollars more than asked for is America's answer to Germany and German military aggression. The treasury department officials said this afternoon that to date subscriptions to the Liberty Loan would be $2,500,000,000. The exact total will not be available until very late tonight.

The sale of Liberty bonds for the $2,000,000,000 Liberty Loan, which closed at noon today, amounted to $46,000 in Maryville, according to reports from the four banks handling them. The Farmers Trust company disposed of $20,000 worth of the bonds.

The sale speeded up a little this morning, nearly all of the banks reporting sales. One bank sold $6,000 worth of the bonds before the noon hour. About $7,050 worth were sold by the four banks this morning.

The campaign to sell the bonds was not very lively in Maryville and the amount sold is a little less than half of what was expected of a city of this size. The spirit shown within the last few days was better than at any time during the period and the ringing of the bells on the three nights helped to remind holders of money of their duty to the country.

The faculty and students of the State Normal school this morning subscribed $600 for Liberty bonds in order to aid in making up the deficit in the $2,000,000,000 Liberty Loan of 1917.

The proceeds from the bonds will be devoted to some worthy cause such as the student fund.

The Boy Scouts of Ravenwood have sold twenty-two subscriptions for the Liberty Bond issue, ranging from $50 to $500, in that town.

Kansas Does Her Part.

Topeka, Kan., June 15.—Indications are that the Kansas Liberty Loan has passed the $20,000,000 mark. At Topeka it was three times oversubscribed.

MAKE WAR ON THE BUGS

Gardener and Farmer Will Lose From 10 to 50 Per Cent of Product If Precautions Are Not Taken.

"The gardener and farmer who wants to make his crops count for the most needs to keep up a constant warfare on the bugs," said Prof. C. C. Leeson of the Department of Entomology at the State Normal school.

"It costs the United States yearly one billion dollars to feed its insect host," continued Professor Leeson. "This is one-seventh of the present special war tax. It is also five times as much as the combined appropriations for the United States army and navy in times of peace. The ordinary gardener will probably lose from 10 to 50 per cent of his product in this way unless some precautions are taken.

"Here are a few formulas that may be efficient in controlling insects: For those insects which eat the leaves use one teaspoon of paris green to three gallons of water, or one tablespoon of arsenate of lead to one gallon of water. The arsenate of lead will cost more, but there is no danger of injuring the plant.

"For sucking insects, such as plant lice, make a soap suds of one-half a cake of ivory soap and one gallon of water. A tobacco spray is also good. For this use one pound of tobacco leaves boiled for one hour in two or three gallons of water, and use as a spray.

"These sprays may be applied with a whisk broom, a sprinkler or a hand spray pump that may be purchased for 75 cents.

"These sprays are of the simplest and safest type and will interest only the amateur. The Department of Entomology of the State Normal school is ready to offer any information and advice to any person having special problems of this type. A return stamped envelope addressed to that department or phone to Hanamo 5669 will receive a willing response."

FAVOR BOND ISSUE

SKIDMORE CITIZENS STATE VIEWS TO THE NEWS EDITOR.

FOR ROADS AND BRIDGES

"The Condition Is Getting So Serious That Bridges Must Be Fixed," Said One Man.

Skidmore residents favor the bond issue for the building of bridges, according to this week's Skidmore News. W. J. Skidmore, the editor, asked a number of the prominent citizens of the vicinity to state their views and nearly all were in favor of repairing roads and bridges with money furnished in this way.

Here is what the men interviewed had to say:

F. C. Barber says: "I have always been in favor of anything that will help better our roads so I favor a bond issue."

G. F. Kellogg: "The road conditions in our county are not as good as our neighboring county, and I certainly favor a bond issue."

Eph Medsker: "Yes, sir! I favor a bond issue."

Dr. J. E. Pierpoint: "Am heartily in favor of a bond issue."

Judge William Wood of Burlington Junction who was in town Tuesday, in speaking of the conditions of the bridges said: "The condition is getting so serious that the bridges will have to be fixed."

J. M. Lee, township trustee: "I think I would be in favor of a bond issue for county bridges."

Jas. R. Gibbs: "Yes, I favor a bond issue."

Reubin Barrett: "No sir! I am opposed to a bond issue of any kind except a government bond."

F. I. Goslee, member of township board: "I certainly favor a bond issue, and think $200,000 would not be enough."

Dr. Roy Morgan: "I am in favor of better bridges and better roads."

G. L. Owen: "I certainly favor better roads and bridges and think we ought to issue bonds."

Frank Albright: Good roads are essential to a county and we cannot have good roads without good bridges so I am in favor of the bond issue."

Floyd R. Barrett: "I am in favor of better bridges."

Mark Loucks: "Our county certainly needs better bridges and I favor a bond issue."

M. A. Sewell: "I am heartily in favor of a bond issue for bridge purposes, as this seems the only way whereby we can maintain our roadways."

C. A. Sewell: I am in favor for a bond issue to cover necessary expenses to repair bridges in the county."

LYLE RITES THIS AFTERNOON

Funeral Services Held at First Methodist Church—Pallbearers Are Relatives of Dead Man.

A large crowd of the friends and relatives attended the funeral services for Lonnie Vern Lyle, which were held at the First Methodist church at 2:30 o'clock this afternoon. Several selections were sung by a quartet, consisting of Misses Mae Corwin and Dale Hulet, E. M. Claypool and the Rev. Gilbert S. Cox.

The pallbearers who were chosen from relatives of the dead man, were Merril Alderman, Joe Robertson, Harry Lyle, Will Thornhill, Clarence Lyle and Frank Lyle.

The body lay in state at the home of Mr. Lyle's parents, Mr. and Mrs. Humphrey Lyle from 10 o'clock this morning until 2 o'clock this afternoon.

Returns From Convention.

Ed G. Orear returned this morning from Excelsior Springs where he attended the convention of the State Pharmaecutical association. Mr. Orear was one of the five men who were recommended by the convention for a place on the State Pharmaecutical board. The appointment will be made by Governor Gardner.

TO RAISE MILLIONS

DETAILS OF TREMENDOUS RED CROSS "DRIVE" BEING WORKED

WILL LAST ONE WEEK

This Side of the Mississippi Has Responsibility of Collecting Fifteen Millions for the Fund.

The initial steps in preparing for the tremendous "drive" of Red Cross Week (June 18 to 25), when one hundred million dollars will be raised for military and civil relief at home and abroad, are being worked out on flying express trains.

Lyman C. Pierce, executive secretary of the Western Red Cross committee, having the responsibility of raising fifteen millions this side of the Mississippi, is directing the great campaign from the railroad cars which are carrying him from one city to another for conferences with the foremost men in those communities. From the cars he is wiring instructions and receiving reports from all the states in his district. And he has reported to the San Francisco headquarters that, in the remarkably short period of ten days, he has built up a fighting organization covering twenty states.

Pierce reports that the conferences in the five cities he has visited have been attended by governors, mayors, presidents of the great commercial clubs and labor leaders, the support for the campaign coming from all interests in the community.

At the Portland conference, which has just been concluded, Chairman John B. Miller clearly and decisively met the one serious objection that had been raised against the Red Cross purpose to take over the relief of soldiers' families. He explained, first, that there was the argument of urgency, the need of some effective action immediately and he pointed out that the Red Cross could act quickly without the delays which would necessarily attend any governmental action. He also made the point that the Red Cross, being the great neutral international agency, was immune from the restraints governing combatants. And, as a third reason why the Hundred Million Fund should be raised by the Red Cross, he declared that the people of the nation needed the call to support it in order to counteract any tendencies toward selfishness.

Besides Miller, the committee is represented in this flying tour by Lawrence C. Phipps, Sr., Charles E. Peabody, Henry L. Corbett and William H. Crocker and Ford Harvey joining the party for the Denver and Wichita conferences. In organizing this territory the committee have met all expenses, all the work being done without cost to the Red Cross as a public service.

$166.50 FOR WAR ORPHANS

Nearly A Thousand Tags Disposed of at Yesterday's Sale — Mrs. C. T. Bell in Charge.

Tag day held yesterday by the members of the D. A. R. for the benefit of the French war orphans was a great success, $166.50 being realized from the sale of the tags. Nearly a thousand tags were disposed of by the "taggers."

At the State Normal school the work was in charge of Miss Katherine Helwig and Miss Beulah Brunner, who were assisted by the Y. W. C. A. girls. About $40 was collected from the students. The work in town was in charge of Mrs. C. T. Bell, who with an able corps of assistants succeeded in covering the business district pretty thoroughly.

The money will be forwarded immediately to the American society for the Relief of French War Orphans, with headquarters at New York.

General Who Will Lead Our Soldiers In France

Major General John J. Pershing, who has been selected to lead the first division of American soldiers in France, is known in the army as "Black Jack." He is a native of Missouri, fifty-seven years of age and was graduated from West Point in 1886. After leaving the Military academy he saw much service in the various campaigns against the Indians. He won a captain's commission for gallantry at El Caney, Cuba, and shortly after was sent to the Philippines.

For his services in quelling the Moros of Mindanao President Roosevelt promoted him to the rank of brigadier general. At the time of his nomination for that rank in 1906 he was the youngest West Pointer ever named as a general of the regular army in a time of peace. In order to reward Pershing President Roosevelt jumped him over 862 officers who were his seniors in rank.

MAJOR GENERAL JOHN J. PERSHING.

General Pershing is a son-in-law of United States Senator Warren of Wyoming. Two years ago he suffered a great bereavement when his wife and two little daughters were burned to death at the Presidio of San Francisco. His little son alone was saved.

He received his major general's stars for his services in command of the United States punitive expedition into Mexico in the attempt to capture Pancho Villa.

Household Hints

Milk, sour or sweet, well rubbed in with an old soft flannel, will make black walnut look new.

To make a handy sewing basket cover a square or oblong peach basket or cardboard box with cretonne and any [illegible] line with contrasting lining cotton. Sew in pockets for necessary articles needed for sewing.

To put the stoves away so they won't rust, dip a cloth in linseed oil and thoroughly rub stoves. This will also help give them a good polish in the fall.

Use a buttonhook to wind up a curtain roller when the spring has run down.

Bobby Veach of Detroit.

Manager Hughey Jennings of the Detroit Tigers attributes the poor showing of the team largely to the fact that one of his best batters has been off in his work with the club. Left Fielder Veach has been away behind what he is capable of doing, but of late has begun to pick up. The Detroit outfield trio—Cobb, Veach and Heilman—is considered about as good as any in either league, and when Veach gets going the Tigers are pretty sure to begin a climb.

Insect Pests Reduce Production of Eggs

Lice and mites by feeding upon laying hens cause a reduction in egg production, says Professor F. E. Fox of the Kansas Agricultural college. The lice live continuously upon the fowl, eating the tissues and causing much annoyance by scratching and irritating the bird. Mites suck the blood of the victim and thus, in addition to annoyance and pain, rob the fowl of needed nourishment.

Lice have biting mouth parts and are therefore easily poisoned. For this purpose blue ointment is the most effective and easiest to apply. A piece about the size of a pea should be well rubbed into the fluff well up into the skin just below the vent. As the lice necessarily must go there for moisture they are readily poisoned. The treatment should be repeated in a week or ten days to assure killing those that hatch later.

Mites are combated in a different manner because of a vital difference in their life habits. They live upon the fowl only at night, sucking the blood. They then leave the bird and hide in cracks, crevices and filth during the day.

Effective control is mostly through sanitation. Give the house a thorough cleaning. Throw out all litter and straw, clean out all filth, brush down the sides, sweep the ceiling and scrub out the house with warm water. Spray thoroughly with coal tar dip, carbolic acid mixed with water or pure kerosene. In applying these solutions a brush may be used, but a spray pump is the most desirable.

THE RAINBOW.

My heart leaps up when I behold
A rainbow in the sky.
So was it when my life began;
So is it now I am a man;
So be it when I shall grow old,
Or let me die.
The child is father of the man,
And I could wish my days to be
Bound each to each by natural piety.

—Wordsworth.

Here is Some Inside Information and a Reason to Buy Your Clothing Now

Good Clothing is, of course, made of wool.
Wool is at the highest price ever known.
Consequently clothing is going to be higher in prices.

That which we have on hand now was bought at a lower market price than will be reached for a long time to come.

Consequently our clothing today is being sold at the same old prices and is the same good quality as always.

We can sell you a suit now at **$15.00, $18.00, $20.00, $22.50 and $25.00**, which will cost you $5.00 or $8.00 more next year.

In the face of these conditions we feel free to tell you plainly and honestly that we will not have our usual "One-Fourth Off Sale" and later, the "One-Half Price Sale."

Regular prices will be maintained absolutely throughout the season: the only reduction at all may be to the extent of a few dollars on a few odds and ends at the very end of the season.

We feel that it is not amiss to tell you that this condition prevails everywhere and you will not find Legitimate Values reduced in price by merchants who follow the usual reputable methods.

We believe you will appreciate this honest heart-to-heart talk about conditions, which is being thought, so that thoseiven so much who might possibly wait for the usual great price reductions given here and elsewhere will not be disappointed.

We advise that you buy now, so that you can get full benefit of service every day the balance of the spring and summer.

Kansas City Stock Letter.

Kansas City Stock Yards, June 11, —A good Monday run of cattle arrived, 16,000 head, market steady to 10c lower; top, $13.35; steers and heifers mixed $12.50, a record price for that class. Hogs received today 8,000; market 10c to 20c lower; top, $15.65. Sheep and lambs today 66,000; market 25c higher; native spring lambs -16.25.

Beef Cattle.

Oklahoma is sending grass cattle early this year, and steers from that state ranged from $8.25 to $11.50, from both above and below the quarantine line. Texas sent some good quarantine cake fed steers, prime steers in this class quoted up to $13. Arizona sent two trains of steers and mixed stock, best selling at $11.90. California sent three trains of steers and a train of mixed cattle, almost 50 cars in all, best of the steers selling around $11.75, heifers $9.00, cows $8.35, canners $7.10. Oregon sent 10 cars of good steers, 1,091 lbs. average, at $11.85, a record price for Pacific Coast steers. Pulp steers from Western Nebraska sold at the top, $13.35, 1,475 lbs. average, and Colorado pulpers brought $13.25, 1,353 lbs. average. Yearlings sold ahead of everything else today. Butcher cattle sold strong, including bulls, most cows up to $11, bulls $10, veals $12.50.

Stockers and Feeders.

Best stock steers in the last week brought $10.05, feeders $10.75, tops a year ago $8.35 and $8.65 respectively. Bulk of the stock steers sold at $8 to 89.40 and very few feeders are moving. Stock cows and heifers bring $7 to $9.50, some fancy heifer calves for breeding at $12, very few cows with calves by their side offered.

Hogs.

The hog market is going down regularly, under pressure of fairly liberal receipts at Chicago, where there were 45,000 hogs today, and some other Northern markets. Top price here at $15.65 was same as top in Chicago today, medium weights up to $15.55, light hogs $15.30, bulk of sales $14.90 to $15.55. However, receipts of hogs at the markets do not begin to be burdensome, and any decline in the price is due to its top-heavy position. Pig prices are staying within closer proximity to fat hog prices than ever before, because of the growing trade in immune stock hogs. The pigs sell at the stock yards at $13.50 to $14.50, and after they have been immunized may be bought at $15 to $15.50.

Sheep and Lambs.

Native spring lambs sold at $16 and $16.25 today, Arizona springs $15.75, California springs, barely better than feeders, sold to killers at $15.50. Clipped ewes are selling at $8.75 to $10, and some clipped Mexican wethers brought $10.25 today. Angora goats sold around $8 today to both killers and country buyers, slick haired white goats worth around $6.75.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine — double strength — and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

MAKE FARM LABOR SURVEY

College of Agriculture Plans to Supply Local Demands for Labor by This Means.

A farm labor survey will be made in each county with a view of supplying local demands for labor. D. C. Wood of the University of Missouri College of Agriculture, who is chairman of the sub-committee on farm labor of the Missouri Council of Defense and H. H. Clark of the United States Department of Agriculture are working on plans for the survey. A man will be appointed in each county to look after labor problems. Demands for laborers will be supplied as far as possible by men in the locality who are seeking labor. In case any county has a surplus of labor the demands of adjoining counties may be filled from that source. This will eliminate unnecessary transportation.

Mr. Wood and Mr. Clark have already received a number of applications for work. A preliminary survey indicates that there is enough labor to supply the demand for the present season in Missouri without going outside the state. If the war continues, however, and the labor resources of the state are depleted by the demands of the army and factories, a serious shortage of farm help will occur. It is hoped that the labor survey will enable a distribution of available labor in case these conditions obtain.

The applications of men for work have come principally from laborers in the cities. Some of them have had farm experience. A number of high school boys have applied for work on farms. The demand for labor thus far has been for experienced men.
